

Shark Printables Free Sample

A taster from the sharks.animals.im printables collection

FREE

3 ACTIVITIES

7 PAGES

Label the shark · colouring page · spotter card

Printable PDF · Letter · info@reallybyte.com

Hello, shark fans!

Three free activities to try at home or in class

In this sample

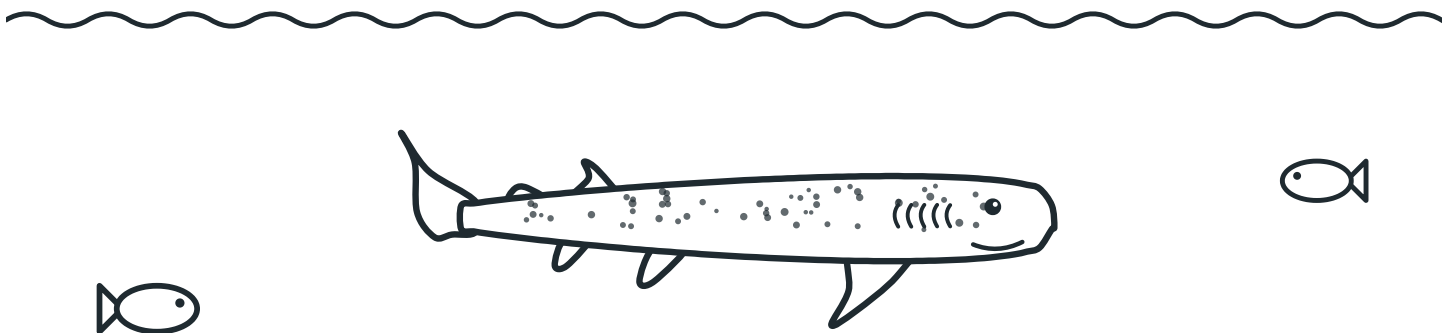

Label the shark (from the <i>Anatomy & Life Cycle Worksheets</i>)	p.3
Colouring page (from the <i>Activity & Colouring Pack</i>)	p.4
Spotter card (from the <i>Spotter & Species ID Cards</i>)	p.5

Printing tips

- Print at **100% / actual size**.
- Inside pages print fine in black and white.
- Print the spotter card on thin card if you can.

Five-second shark facts

- There are more than 500 species of shark.
- Sharks have lived in our oceans for over 400 million years, well before the dinosaurs.
- The dwarf lanternshark is the smallest shark in the world, reaching a maximum known length of 20 cm (8 in).
- Humans are not part of a shark's normal diet.

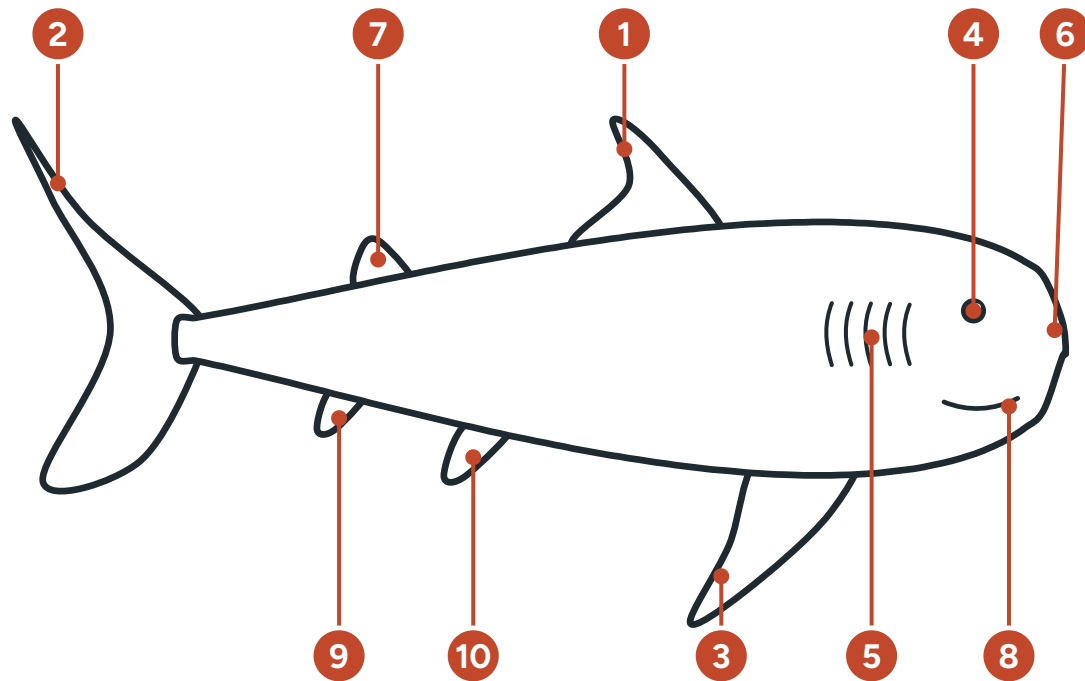

FROM THE ANATOMY & LIFE CYCLE WORKSHEETS

Label the shark

Write the name of each part next to its number

Word bank: Snout · Eye · Mouth · Gill slits · First dorsal fin · Second dorsal fin · Pectoral fin · Pelvic fin · Anal fin · Tail (caudal fin)

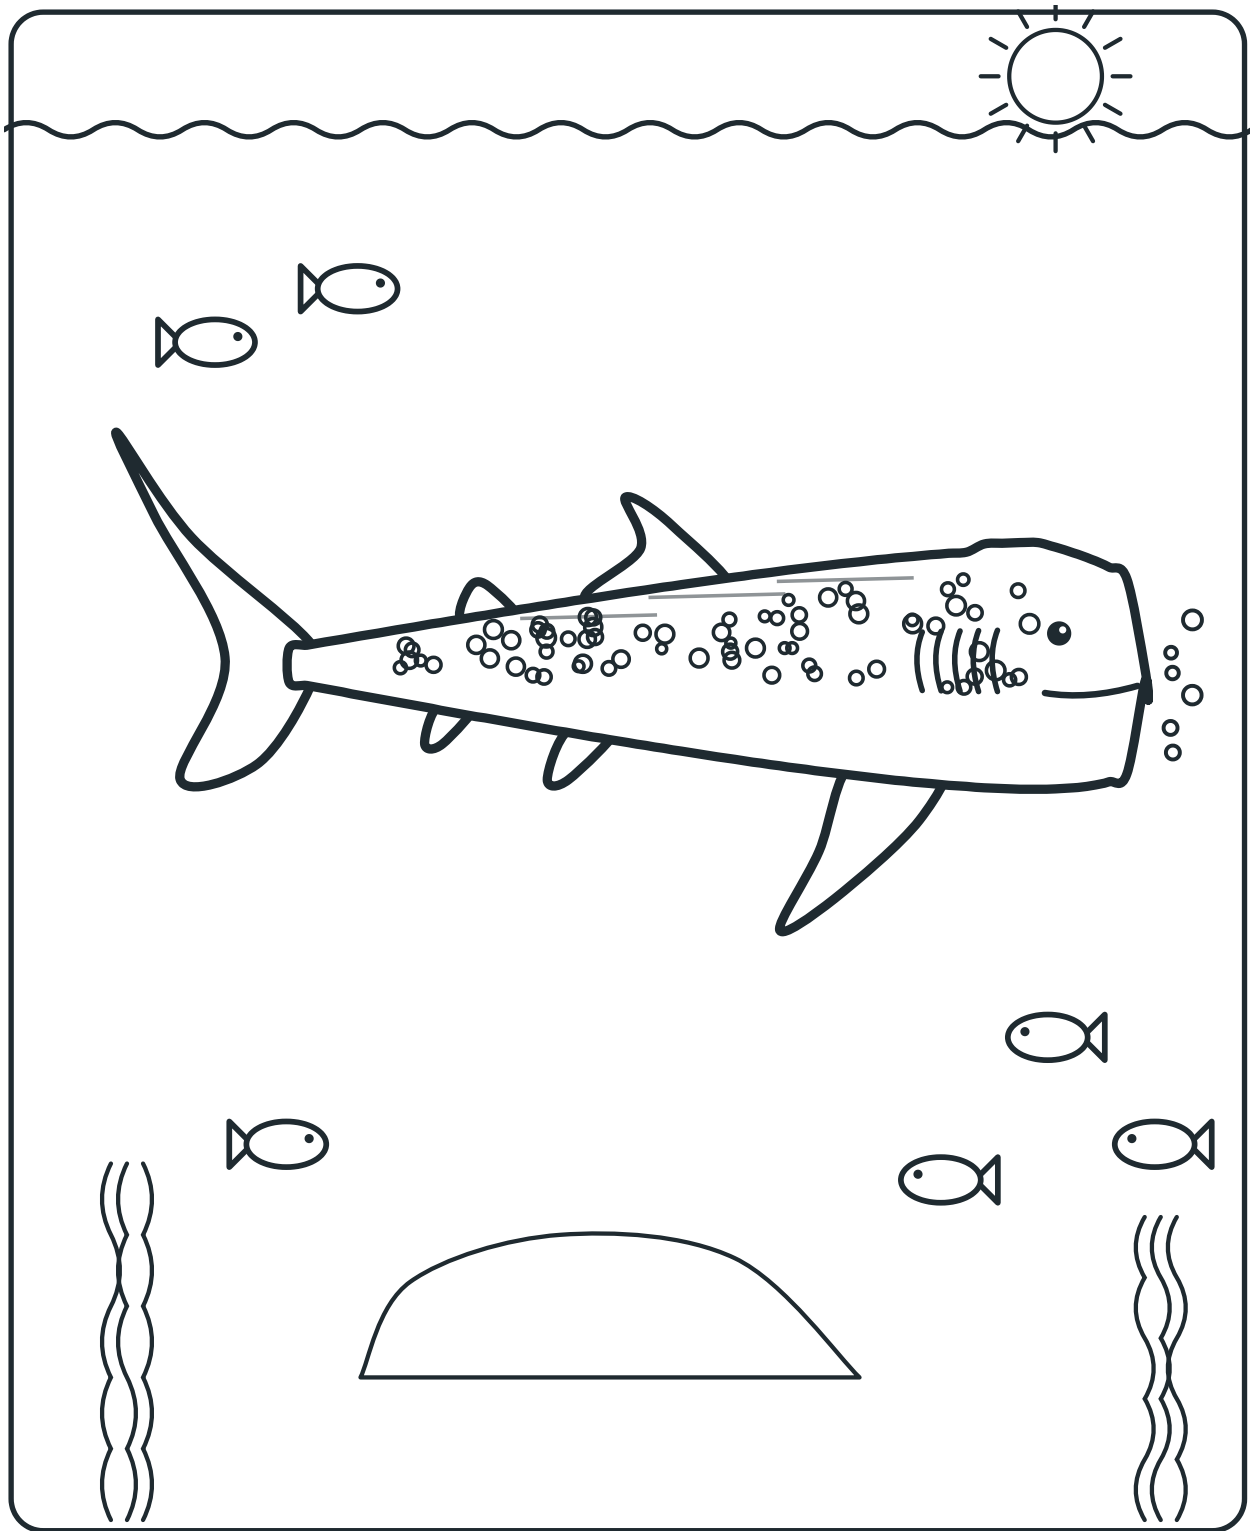

1. _____
3. _____
5. _____
7. _____
9. _____

2. _____
4. _____
6. _____
8. _____
10. _____

Answers: 1 First dorsal fin · 2 Tail (caudal fin) · 3 Pectoral fin · 4 Eye · 5 Gill slits · 6 Snout · 7 Second dorsal fin · 8 Mouth · 9 Anal fin · 10 Pelvic fin

FROM THE ACTIVITY & COLOURING PACK

Whale shark and friends

True fact: Colour in the whale shark's spots in your own pattern. Each whale shark's pattern of pale spots and stripes is unique to that individual.

FROM THE SPOTTER & SPECIES ID CARDS

Shark spotter card

Cut around the outside, fold along the middle line and glue the halves together

Small-spotted catshark

Scyliorhinus canicula

1/1

COAST

Small-spotted catshark

1/1

Scyliorhinus canicula

- The small-spotted catshark lives from Norway and the British Isles south to Senegal, and in the Mediterranean. It grows to about 1 m.
- Small-spotted catsharks lay egg cases with long tendrils, mostly fixed to seaweed in shallow coastal water.
- A catshark embryo develops in its case for 5 to 11 months, depending on the sea temperature, and hatches at 9 to 10 cm long.

IUCN RED LIST (2021)

Least Concern

The full set has twelve species, from the whale shark to the goblin shark, plus a checklist and a Who am I? game.

Credits, licence & help

The small print, kept short

YOUR LICENCE

Thank you for buying from REALLYBYTE. You may print as many copies as you need for **your own family or your own class/group**, and share the file with your own students through a password-protected platform (for example Google Classroom). Please don't resell, re-upload, post publicly or share the file with other teachers or families; colleagues can buy their own copy. One purchase = one household or one teacher. All rights not granted here are reserved.
